

What Premier Has Done for Me....

At my first jewelry show, I was trying my best to be invisible so that the jewelry lady would not call on me and I would not have to speak in front of the group of six ladies gathered there. I had forgotten how to dress in anything but sweats and also had forgotten how to apply make up because I did not wear it that often. Throughout the show I was trying to find something inexpensive to buy because we really could not afford to buy any extras at the time. I had recently quit my job to stay at home with my children full time and we were having a tough time making ends meet. Now four years later, thanks to Premier I have a whole new outlook on life. I used to say "I could never do that." Now, I feel that I can do anything if I try hard enough. I have learned how to "dress for success" and feel much more confident because of it. I am now able to speak regularly in front of groups of people with little or no fear at all. My family's financial situation has become much more comfortable thanks to my income from Premier. I cannot imagine where I would be if Premier had not come into my life and I am so thankful to have been introduced to such an amazing company. **Christi Phillips, Akron, OH (4 years in Premier)**

When I made the decision to start selling Premier Designs jewelry, it was not to make a lot of money or build a huge business. Doug and I both worked full time jobs and I just needed an extra \$1000 a month to help relieve the mountain of debt we had and to help with our children's school tuition. It didn't take me long to figure out how MUCH money I could make selling Premier jewelry versus sitting at my hospital desk forty hours a week! Just a few things Premier has done for me in the past four years....In just ten months I quit my full time job, it has helped pay off our debt, I now pay cash for things instead of charge them, I write checks for all three of my children's school tuition, we take vacation whenever we want to, and the two most important things.....I have made friends that are more like family than you ever could imagine, and a new feeling of self worth that I never knew was there. **Adrienne Dawes, Cuyahoga FALLS, OH (4 ½ years in Premier)**

When I first heard about Premier in 2003, I was currently successful with another direct sales company for 5 years, so I wasn't looking for anything like this. I attended my friend's homeshow out of a sense of "duty." Of course, once I saw the jewelry, I loved it all, and decided I would have my own homeshow so that I could take advantage of the hostess plan, which far surpassed anything I ever gave away from my other company. But when I heard about the marketing plan, I got really excited! You see, even though I was a successful distributor of another product, that marketing plan didn't come close to what Premier has to offer. I immediately signed up with the idea that I would simply market the jewelry to my existing customer base, and keep both lines going. What I didn't realize is that God had other plans for me. In fact, following Premier's Quickstart was the blueprint for my success. Having 9 shows in the first 45 days got me started with a whole new business that has been growing ever since. I barely scratched the surface of my network of people; instead, Premier Designs homeshows opened the door to an entirely new network of people: customers, hostesses, new jewelers and friends- lots & lots of friends! I love my Premier business. **Marcy Imperi, Moreland Hills, OH (4 years in Premier)**

I was a stay-at-home mom after working for 8 years as an insurance underwriter. I have 3 boys and love them dearly, but after 11 years at home with my children, I felt that I needed some adult interaction and something to challenge myself. My husband works many long hours with his own business, so I knew I didn't want to be committed to working for someone else on a set schedule. Premier Designs appeared in my life at **exactly** the right time. I have met so many wonderful and inspiring people in the short time that I have been in Premier. I enjoy getting out of the house and playing in the jewelry, but I especially love the new self-confidence I have. The extra income has been great, especially for the holidays. I am so blessed to have found such a wonderful and caring company, and I know I will have a long, successful future with Premier. **Jill Rizner Downers Grove, IL 8 months in Premier**

For a year and a half I worked for a large home builder as a Sales Associate. The potential to make money in that business was unimaginable. However, it was strictly based on someone else determining your worth in order to be promoted. After missing out on every weekend event with my husband, family, and friends, I became very frustrated.. I had been praying for something to come along that would fulfill my needs. Little did I know that I was praying for an opportunity exactly like Premier! The whole thing really sounded too good to be true, but I figured, I was so miserable in my current situation; I really had nothing to lose. After only a month of being in Premier, God had TRULY answered my prayers and I was able to quit my job!!! Every day since then has been a wonderful journey in Premier! I thank God everyday for this opportunity He has blessed me with! **Betsy Mercer, Aurora, IL 6 Months in Premier**

I am a brand new rep, in a brand new town... signed on to Premier the day I left Texas knowing that I could build my business wherever I went. While that is partly true, your business can be anywhere, what I didn't realize was that I would need the support and training from senior Premier leaders. Dona Marrone, graciously, welcomed me to her established team and made me feel so much apart of it. Even though Dona had nothing to gain from me being on her team, she still encourages me, keeps me knowledgeable on local trainings, and welcomes me with a smile. On more than one occasion, I questioned whether I should have waited to begin this journey with Premier until after I established our new life in Chicago. The short answer to that... no way! After my first rally, I knew that waiting would have only delayed me becoming apart of an amazing company and working with amazing women, seeking the same level of fun, friendship, and financial independence that I am seeking! I quickly learned that your Premier Family extends far beyond your own personal upline or downline..... Premier is one large family, eager to help each other... no matter where you may move to in life, you will always find someone willing to help you adjust! **Jennifer Shern, Naperville, IL**

Before having children, I was a corporate career woman who was quickly working her way up the corporate ladder. When we decided to start our family, we didn't imagine that we would be blessed with beautiful, energetic triplet boys. My career focus changed to being a stay-at-home mother of three premature babies and away from that successful career I was building. After five years of being a stay-at-home mother, Premier gave me the opportunity to build a successful home-based business, financially contribute to my family, and continue to be a stay-at-home mother. I am inspired by the amazing women that I have the privilege of learning from every day. I am thankful for the wonderful relationships that I have built with the women in my downline and the friendships I have developed with other Premier jewelers. It is my privilege to enrich other people's lives by serving through Premier Designs.

Thank you! **Tasha Baird, Cary, IL 8 months in Premier**

I was a pharmaceutical sales representative for 5 years. My husband & I were both making great paychecks, but we realized we never had quality time with our children. I never liked going to home shows but my sister said she needed 10 people there. I fell in love with the jewelry and booked a show because I knew it would benefit both of us....I **never** thought you could make good money in direct sales. Premier has given us peace of mind because for the first time in the 11 years of married life, we live DEBT FREE! Premier has introduced me to some of my closest friends and some of my children's favorite friends are children in Premier! This business is a blast! Anyone thinking about Premier...your future is waiting~ The best way to predict the future is create it...here is your how!! Premier has the BEST hostess plan, the BEST marketing plan, the BEST training, and the BEST income opportunity out there! This is the BEST thing that has happened to my marriage and my family! **33 years old~ Michelle Huzl 2 1/2 years in Premier**

Initially, I decided to become a jeweler to help my family financially. I had for a few years been working at different part-time jobs to supplement our income so I could stay at home with my three small children during the day. I tried many things so that I could make extra money. Unfortunately, it did not give me the freedom and flexibility that I needed for quality family life. I had been around Premier for a few years because a good friend of mine had started in the business and it had exceeded every need in her life and more. She is now a Six Diamond Designer. I had been resisting the fact that Premier could be the answer to my prayers. I decided to go for it! I am so glad that I did! Not only has Premier enabled me to keep the freedom and flexibility that I needed, but I have made so much more money than I ever did with my other part time jobs. Plus, I love going to work! I appreciate that you are rewarded for working hard, and doing a good job on your own merit. I personally enjoy that I am able to look great, and help teach others to have a fashion sense for themselves as well. My Premier business has helped to increase my faith both for myself and my family. Premier has helped me to develop life long friendships with hostesses, guests and other jewelers around the county. These smart, beautiful and very strong women have inspired me to be the best that I can be. I am blessed that I can now help to make a difference in other women and their family's life like Premier has in mine. I cannot imagine not being a Premier Designs Jewelry Lady! **Robynn Douthit 40 2 years in Premier**

Though I had tried every home based business I could after our son was born- graphic design, writing copy, even day trading on the stock market- I never felt satisfied. Having my own Premier business has left me feeling like I have a purpose in life and I've developed friendships, have goals and have found a reason to stretch myself to be a better person. Would I have thought a year ago that I'd be doing this? NEVER! But what I have found is that I'm not so lonely and love the companionship of the other women in Premier. I thank God that He brought this into my life! My husband loves the time flexibility and knowing that I'm getting paid every time I go out. My son loves knowing his Mom has her own business. I LOVE my Premier business! **Karen Kalis, Chesterland, Ohio, 6 months in Premier**

Premier Designs has been a very special blessing to me and my family for so many reasons. Premier has given me the opportunity to buy a place in Wisconsin where my family and I can spend summer weekends bonding and making memories. It has given me recognition and a feeling of accomplishment that you can't always get from being a stay-at-home-mom. Premier Designs has given me the chance to achieve financial freedom as well as the opportunity to make wonderful new friendships. The thing I didn't expect to get from Premier is a deeper spiritual closeness to Jesus Christ. I love the little notes from customer service signed "blessings or Christ's Peace." The spiritual side of Rally was incredible. Never would I have believed I would be holding hands with a group of women in a room full of 3,000 people and praying without being self-conscious. It was beautiful. No other company can give you that feeling. I also have received beautiful prayers and support from the prayer line that really helped when a family member needed prayers. That meant so much to me. Premier Designs is a very special company and I am so glad to be a part of it. **Sharon Kelly, Naperville, IL (1 year)**

When I went to my very first jewelry show I was working as a nurse 2 days a week.. making what I thought was great money... and not looking to do anything else..... I did not wear much jewelry nor had I ever sold a thing..... but.. when I heard how much \$\$ the jewelry lady was making..... I thought I would give it a try..... afterall, we have always wanted to build our own house and I knew the more money I made, the faster we would build that house....well in a short time I was making double the money in 1/2 the hours..... and decided to resign my nursing position... And we have now met with our architect and are planning that new house!!! WOOHOOOOO.. THANK YOU PREMIER!! I have also gained this wonderful extended family that I am so blessed to have!!!! **Stephanie Green, Uniontown, OH (2 1/2 years)**

I found myself at a Premier Designs Jewelry show a couple of months after moving from Florida back to Ohio. I wasn't excited about going to a jewelry show since I never changed my jewelry and we had no extra money spend, but I wanted to support my mother-in-law. At the show, I still wasn't listening to the opportunity Premier would offer me, but when Dona came over to home hostess coach me, my ears perked up. My husband initially wanted to start his own business to support us while he then got into full time ministry, but in the meantime, we need some extra money. I had 2 small children at home (3 and 2 years old) and Premier opened a great door to be able to stay home, not pay for daycare, and earn GREAT money! I fell in love with selling for a company with biblical principals! I look forward to selling for Premier for many years! Thanks Dona for sharing your business. **Meri Lu Hill, Uniontown, Ohio 2 1/2 years in**
